Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species: Species of figures 1-4 and 9 and Species of figures 5-8. The species are independent or distinct because they contain the claims directed to patentably distinct.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

2. During a telephone conversation with Geoffrey Shippides on 04/17/2007 a provisional election was made without traverse to prosecute the invention of species of figures 1-4 and 9, claims 1-17, 19, 20, 22-26, and 63-66. Affirmation of this election must be made by applicant in replying to this Office action. Claims 18, 21, 27-62, and

67-75 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-17, 19, 20, 22-26, and 63-66 are rejected under 35 U.S.C. 102(b) as being anticipated by Stinson et al. (U.S. 6,340,367).

Note in figures 1-5, a polymer wire (14) extending spirally in a first direction about a longitudinal axis of the expandable stent (10) and metal wire (16) extending spirally in a second direction about direction about the longitudinal axis, wherein the second direction being counter to the first direction and furthermore, wherein the Stinson et al described the materials formed of metal wire (16) and polymer wire (14) (see col. 3, line 60 through col. 4, line 27 and col. 7, line 65 through col. 9, line 55).

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Chouinard et al. (U.S. 6,585,758) comprises filament formed of polymer material.
